Habitat Section  
Southeast Region

**191-10-11400**

## CORRECTION

**Water body name:**

**Survey date:** 6/15/2024

**Quad:** Bering A-4

**Species & Lifestage:** COr, Ps

**Upper Reach Latitude:** 60.067022 **Longitude:** -142.430666

**Survey crew:** NJ, GA, FC

**Lower Reach Latitude:** 60.065109 **Longitude:** -142.433444

**Findings:** We surveyed this cataloged stream using a backpack electrofisher and GPS and found that the stream path is incorrectly mapped. We visually identified juvenile coho salmon but were unable to collect pictures. This stream provides quality fish habitat with resting pools and diverse substrate; the mouth at the intertidal can be seen on aerial imagery (Table 1).

**Recommendations:** Correct Stream No. 191-10-11400 in the anadromous waters catalog to reflect the field verified stream path and extend stream into the intertidal (Figure 1).

**Nomination:** Pending
