ADDITION

Water body name:

Survey date: 6/16/2024

Quad: Bering Glacier A-5

Species & Lifestage:

Upper Reach Latitude: 60.099910 **Longitude:** -142.501542

Survey crew: NJ, GA, FC

Lower Reach Latitude: 60.098618 **Longitude:** -142.500096

Findings: We surveyed this uncataloged stream using a backpack electrofisher and GPS and captured juvenile coho salmon, Dolly Varden, and stickleback. There is an active head cut that could act as an anadromous barrier just beyond this point; no fish caught above the head cut. (Table 1; Figures 1–4).

Recommendations: Add this uncataloged stream to the anadromous waters catalog for rearing coho salmon up to waypoint 292 (Figure 5).

Nomination: Pending
