ADDITION

Water body name:

Survey date: 9/14/2024

Quad: Yakutat C-4

Species & Lifestage: CO, SB

Upper Reach Latitude: 59.583324 **Longitude:** -139.476768

Survey crew: CD, FC

Lower Reach Latitude: 59.575757 **Longitude:** -139.489425

Findings: We surveyed this uncataloged stream from the road using baited minnow traps and GPS and captured juvenile coho salmon and stickleback (Figure 1). The stream is slow moving through a wetland however gravel was visible near the culvert (Table 1; Figures 2, 3). The culvert does not appear to be a barrier to fish passage and future investigation upstream is recommended.

Recommendations: Add this uncataloged stream to the anadromous waters catalog for rearing coho salmon (Figure 4).

Nomination: Pending
