ADDITION

Water body name:

Survey date: 9/14/2024

Quad: Yakutat C-4

Species & Lifestage: CO, DV, SB

Upper Reach Latitude: 59.579844 **Longitude:** -139.466156

Survey crew: CD, FC

Lower Reach Latitude: 59.579268 **Longitude:** -139.467824

Findings: We surveyed this uncataloged stream from the road using baited minnow traps and GPS and captured juvenile coho salmon, Dolly Varden, and stickleback (Figure 1). The stream is slow moving through a wetland and the culvert appears to be overgrown and possibly blocked with debris (Table 1; Figures 2, 3). In its current state the culvert may block fish passage and future investigation upstream is recommended.

Recommendations: Add this uncataloged stream to the anadromous waters catalog for rearing coho salmon (Figure 4).

Nomination: Pending
