**ADDITION**

**Water body name:**

**Survey date:** 9/15/2024

**Quad:** Yakutat B-4

**Species & Lifestage:** COr, SB

**Upper Reach Latitude:** 59.469935 **Longitude:** - 139.136317

**Survey crew:** CD, FC

**Lower Reach Latitude:** 59.469398 **Longitude:** - 139.136773

**Findings:** We surveyed this uncataloged stream from the road using baited minnow traps and GPS and captured juvenile coho salmon and stickleback (Figure 1). The stream is low gradient through a wetland and the culvert appears to be partially blocked with debris (Table 1; Figures 2, 3). While partially blocked, the culvert does not appear to be a barrier to fish passage and future investigation upstream is recommended.

**Recommendations:** Extend upper extent of Stream No. 182-70-12000-2013-3017-4008-5005 in the anadromous waters catalog (Figure 4).

**Nomination:** Pending
