ADDITION

Water body name:

Survey date: 9/15/2024

Quad: Yakutat B-3

Species & Lifestage: CO, DV, SB

Upper Reach Latitude: 59.448200 **Longitude:** -139.053248

Survey crew: CD, FC

Lower Reach Latitude: 59.449282 **Longitude:** -139.057104

Findings: We surveyed this uncataloged stream from the road using baited minnow traps and GPS and captured juvenile coho salmon, Dolly Varden, and stickleback (Figure 1). The stream is low gradient though a wetland and under these flow conditions the channel is not well defined (Table 1; Figures 2, 3). Fish habitat likely continues upstream.

Recommendations: Extend the upper extent of Stream No. 182-70-12000-2020-3042-4002 in the anadromous waters catalog and add Dolly Varden to the species present (Figure 4).

Nomination: Pending
