Lower Landing Uncataloged Stream

ADDITION

Water body name:

Survey date: 9/18/2024

Quad: Yakutat B-4

Species & Lifestage: CO

Upper Reach Latitude: 59.456817 **Longitude:** -139.588145

Survey crew: CD, FC

Lower Reach Latitude: 59.450178 **Longitude:** -139.592881

Findings: We surveyed this uncataloged stream from the road using baited minnow traps and GPS and captured juvenile coho salmon (Figure 1). The stream is moving slowly through a wetland with a well defined channel downstream and ponded area upstream (Table 1; Figures 2, 3). We recommend upstream investigation of this channel and resurveying other channels in the area later in the fall.

Recommendations: Add this uncataloged stream to the anadromous waters catalog for rearing coho salmon (Figure 4).

Nomination: Pending

Table 1.– Lower Landing Uncataloged Stream survey data.

Waypoint	Latitude	Longitude	Notes	Stream Width ft	Stream Substrate	Habitat Features	Gradient %	Sample Effort	Sample Results
1279	59.456820	-139.588167	Pipe draining flooded field on both sides of road. Not visible above water level. Minnow trap set downstream of culvert. Two CO captured; one CO fell from trap. Trap reset upstream of culvert. No fish captured upstream of culvert.					MT	2 CO
1280	59.455148	-139.586840	Vegetated flooded channel on either side of the road drained by 2 foot CMP fully underwater. Flooded wetlands on either side of the road.		Fine Organic			MT	No Fish
