## 191-20-13800-2016 Tributary 2

**ADDITION**

**Water body name:**

**Survey date:** 7/25/2024

**Quad:** Icy Bay D2, D3

**Species & Lifestage:**

**Upper Reach Latitude:** 59.977383 **Longitude:** -141.641885

**Survey crew:** NJ, DK, CD

**Lower Reach Latitude:** 59.977117 **Longitude:** -141.638868

**Findings:** We surveyed this uncataloged stream using baited minnow traps and GPS and captured juvenile coho salmon. This stream has ponded water on both sides of the road that are currently connected. There is a defined channel downstream of the road that continues southeast. Fish habitat beyond this point is unclear but possibly connects to nearby channel (Table 1; Figures 1-3).

**Recommendations:** Add this uncataloged stream to the anadromous waters catalog for rearing coho salmon up to waypoint 760 (Figure 4).

**Nomination:** Pending
