## 114-23-10700-2005 Tributary 2

## ADDITION

**Water body name:**

**Survey date:** 6/29/2024

**Quad:** Juneau A-6

**Species & Lifestage:**

**Upper Reach Latitude:** 58.143184 **Longitude:** -135.897075

**Survey crew:** CD, DK

**Lower Reach Latitude:** 58.143881 **Longitude:** -135.897447

**Findings:** We surveyed this uncataloged stream using baited minnow traps and GPS and captured juvenile coho salmon. This slow-moving stream is primarily composed of fine organic substrate upstream of the road crossing, transitioning to gravel and larger cobble downstream. The culvert does not hinder fish passage but is undersized and not set deep enough. Future investigation upstream is warranted. (Table 1; Figures 1–3)

**Recommendations:** Add this stream into the anadromous waters catalog for rearing coho salmon. (Figure 4).

**Nomination:** Pending
