Comments:

Habitat Biologist Amber Stephens set fish traps upstream and downstream of the culvert at MP 12.6 of Lake Aleknagik Road to check for fish presence. The traps soaked for 13 hours. 2 coho juveniles (48 and 52 mm, 1 slimy sculpin (105 mm), and one Dolly Varden (136 mm) were caught upstream, and one coho (62 mm) was caught downstream. Approximately 50 additional salmon juveniles (most likely coho) and two more Dolly Varden were observed inside of the culvert.
Coordinates (Lat,Long): (59.188959,-158.672593)

Name of Observer (please print): Amber Stephens
Signature: 10.231.39.10 (Web Nomination) Date: 09/29/2025
Agency: _____
Address: 333 Raspberry Rd.
Anchorage, AK 99518

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.

Signature of Area Biologist: _____ Date: _____ Revision 3/16
