191-20-13400-2013

CORRECTION

Water body name:

Quad: Bering Glacier A3

Upper Reach Latitude: 60.004341 **Longitude:** -141.855303

Lower Reach Latitude: 60.006265 **Longitude:** -141.897657

Findings: We surveyed this cataloged stream using baited minnow traps and GPS and found that the stream path is incorrectly mapped. We captured juvenile coho salmon and Dolly Varden. This stream crosses the road under a bridge at waypoint 631 and flows from the forest to the northeast; it then follows the channel in the open that can be seen in aerial imagery (Table 1; Figures 1–3).

Recommendations: Correct Stream No. 191-20-13400-2013 in the anadromous waters catalog to reflect the field verified stream path (Figure 4).

Nomination: Pending

Survey date: 8/20/2024

Species & Lifestage: CO

Survey crew: NJ, CD, DK

Table 1.–191-20-13400-2013 survey data.

Waypoint	Latitude	Longitude	Notes	Stream Width ft	Stream Substrate	Habitat Features	Gradient %	Sample Effort	Sample Results
631	60.002678	-141.860481	Log stringer bridge, fabric hanging down from bridge but not blocking flow. This is the cataloged stream. Ditch enters this stream.	4-6	Cobble		1-2	MT	27 CO 2 DV
