JUSTIFICATION: This emergency order will provide sport fishing opportunity for Alaska hatchery-produced king salmon in areas where they are expected to return in surplus of broodstock needs.

Gunnuk Creek is a remote release location for king salmon originating from Hidden Falls Hatchery, and broodstock is not collected at this location. This action provides limited harvest opportunity for Alaska hatchery-produced king salmon in an area that would otherwise be closed to retention of king salmon to protect Alaska wild king salmon stocks. Regional king salmon regulations apply in Anita Bay beginning June 1 as provided by emergency order 1-KS-R-08-26.

PREVIOUS EMERGENCY ORDERS AFFECTED:

Emergency Order 1-KS-R-07-26 established resident and nonresident king salmon bag and possession limits and a nonresident king salmon annual limit as directed by the *Southeast Alaska King Salmon Management plan* (5 AAC 47.055). These regulations remain in effect in the areas and times outside those described in this emergency order.

Emergency Order 1-KS-R-8-26 establishes areas and times when king salmon may not be retained in the vicinity of Haines, Skagway, Juneau, Petersburg, Wrangell, and Ketchikan. These actions are being taken to reduce the harvest of Southeast Alaska wild king salmon stocks and meet objectives for king salmon management within the Pacific Salmon Treaty, and remain in effect in the areas and times outside those described in this emergency order.

DISTRIBUTION: The distribution list for this emergency order is on file at the Region 1 Office of Alaska Department of Fish and Game, Division of Sport Fish, P. O.
